Subject: Interests of the IG Farben Industry

We have received your letter of 2 April 1947 forwarded with dispatch from our Mückenberg plant. We are very glad that an office has finally been set up to enter into a fundamental clarification of the legal position in the matter of expropriation of IG interests. Our objection, which we raised both with the German Central Administration's Department for Sequestration and Expropriation in Berlin and with the head of the Division of Economy for the Province of Saxony, has unfortunately remained until now unanswered.

We reply to your question thus: that the IG Farbenindustrie AG has as partner a direct interest of about fifty percent in our firm and also in the two factories, Chemowerk and Ferroverker, Mückenberg, which are entirely under our control as production stations. The amount of the IG Farben interest is twenty million RM.

Dr. Alexander Wacker  
Gesellschaft für elektrochemische  
Industrie, GmbH

ORDER

of the deputy of the commander in chief of the SMA in Germany

6 December 1946

No. 141

Berlin

Contents: Organization of the Production of Artificial Magnesite

For the purpose of supplying the need for magnesite: ~~CONFIDENTIAL~~

1. The head of the administration of the economic disarmament of Germany of the SMA in Germany, Comrade Samarayev, will hand over the buildings and equipment of the Aken plant (Attachments 2 and 3) to the German administration of the Province of Saxony; likewise the appliances, raw materials, and building materials according to Attachments 4 and 5 for the organization of magnesite production.
2. The head of the administration of the SMA of the Province of Saxony, Major General Shlyakhtenko, will charge the president of the Province of Saxony, Dr. Hübner:
  - a. To appoint a director and other leading workers for the Magnesit-Werke, Aken.
  - b. To assign to the factory on 1 January 1947 100 workers, including 50 building and 50 installation workers, and on 15 January 1947 to supplement these with 100 workers of the same categories.
  - c. To insure the commencement of work in the four-month period prior to 1 May 1947.
  - d. To set up a schedule of production of artificial magnesite-300 tons in April 1947 and 1000 tons in the second quarter of 1947.
3. The president of the German Economics Administration of the Soviet Occupation Zone in Germany, Skrzypczynski, is to provide practical assistance to the works in securing the necessary materials.
4. The supervision of the fulfilment of this order to be enjoined upon the administration of the mining and metallurgic industry of SMA in Germany, Comrade Kurmchev.

Representative of the commander in chief of SMA in Germany

K. Koval
